### GASKETS HANDLING & STORAGE

All pallets must be handled carefully during transport  
Notify factory immediately if pallets are received damaged.  
Keep products wrapped or sealed to minimize the absorption of moisture.  
Keep away from direct heat or open flames.  
Avoid contact with solvents or other fluids.

The shelf life could change dramatically based on storage conditions. Suitability for the use and application of the product is the responsibility of the user. No guaranty is given with respect to length of service on any particular application. Suggestions or recommendations made by APS in its product literature concerning uses or applications of the goods are believed to be reliable, but APS makes no guarantee of results to be obtained since the conditions of the use, storage and application by Buyer and others are beyond APS control.
